

European MASTER COURSE MESC+

materials for energy storage and conversion

ERASMUS MUNDUS EMJMD (2018-2024)

<https://www.u-picardie.fr/mundus-mesc/>

- **2-years program in English (3 semesters of Class, 6-months Thesis)**

Inorganic chemistry

Electrochemistry

Nanomaterials

Characterisation techniques: XRD, Microscopy, Thermal analysis,...

Thermodynamics

Intellectual Property

Crystallography, Energy/hydrogen storage

- **7 Partner Universities**

Amiens (FRANCE), Toulouse (FRANCE)

Bilbao País Vasco (SPAIN)

Warsaw (POLAND)

Ljubljana (SLOVENIA)

DEAKIN (AUSTRALIA), DREXEL (USA)

- **RS2E and ALISTORE Networks as partners**

- **Many Leading Companies involved**

31 k€ Scholarships : DEADLINE for APPLICATION = 10 March, 2019

Achievements of MESC+

Running since 2004

Joint Master Degree

14 classes

256 students enrolled from 48 countries

246 graduates, strong alumni network

More than 75% go for a PhD, mostly in Europe

Strong support from the industry: 8 scholarships per year

Master Thesis topics all over Europe (Alistore, RS2E, companies)
