

WARSAW UNIVERSITY OF *Technology*

Warsaw University of Technology (WUT) is the oldest technical university in Poland. It began its independent activity on November 15, 1915, however, its history started in 1826. Now, over **20 000 students** study at our **20 Faculties**. Our priorities are multi-layered study programmes supported by advanced scientific research. In response to market demands, and with the help of our academic staff (over **2500 academicians, including 600 professors**), we offer a wide range of technological courses (**over 30 courses in English**).

WUT is the best technical university in Poland!

WUT is ranked no. ONE in Poland among 24 universities of technology in the “Perspektywy” 2024 ranking.

WUT Priority Research Areas:

- ✓ **High Energy Physics and Experimental Techniques**
- ✓ **Biotechnology and Biomedical Engineering**
- ✓ **Artificial Intelligence and Robotics**
- ✓ **Material Science and Engineering**
- ✓ **Cybersecurity and Data Science**
- ✓ **Energy Conversion and Storage**
- ✓ **Photonic Technologies**

Faculty of Chemistry
Warsaw University of Technology

Faculty of Chemistry

The Faculty of Chemistry is one of the oldest faculties of Warsaw University of Technology. It was founded in 1898.

The academic staff of the Faculty of Chemistry consists of 63 professors (including 35 tenured professors), 72 assistant professors, 8 senior lecturers and 13 lecturers.

The Faculty educates students and conducts scientific research in highly specialised scientific fields such as:

- chemical technology and catalysis
- polymer technology and processing
- biotechnology
- technology of explosives
- technology of semi-conducting materials and materials of special properties (magnetic materials, high-temperature superconductors, synthetic metals, conducting polymers, applied and functional ceramics)
- technology of pharmaceuticals and cosmetics
- analytical chemistry and materials characterization.

Faculty of Chemistry conducts also Doctoral studies in disciplines: chemical science, chemical engineering and biotechnology.

The Faculty of Chemistry is one of the three best chemical faculties at Polish universities of technology!
